

## **Fourth Workshop on Baltic Sea Ice Climate**

**Norrköping, Sweden · 22–24 May, 2002**

**Conference Proceedings**  
**Editors: Anders Omstedt and Lars Axell**

#### PARTICIPANTS

**Standing:** Sabine Hafner, Matti Leppäranta, Jouko Launiainen, Ralf Döscher, Burghard Brümmer, Henrik Lindh, Roy Jaan, Anders Backman, Hardy Granberg, Amelie Kirchgassner, Philip Lorenz, Marzenna Sztobryn, Torsten Seifert, Kunio Shirasawa, Jaak Jaagus, Bin Cheng, Christin Pettersen, Peedu Kass, Maria Lundin, Karin Borenäs

**Sitting:** Keguang Wang, Johanna Ikävalko, Corinna Schrum, Arvo Järvet, Jan-Eric Lundqvist, Markus Meier, Anders Omstedt, Lars Axell

## CONTENTS

<b>Optical properties of the system "ice cover +water" in different type of water bodies</b>	
<i>Erm, A. and Reinart, A.</i> .....	1
<b>Sea ice–water processes and interactions in the SW coast of Finland</b>	
<i>Ikävalko, J., Ehn, J., Forsström, L., Kaartokallio, H., and Spilling, K.</i> .....	11
<b>Baltic Sea ice biota</b>	
<i>Ikävalko, J., Kaartokallio, H., Spilling, K., Karell, K., Ehn, J., and Roine, T.</i> .....	13
<b>Atmospheric reflections to the Baltic Sea ice climate</b>	
<i>Launiainen, J., Seinä, A., Alenius, P., Johansson, M., and Launiainen, S.</i> .....	19
<b>Time series analysis of synthetic aperture radar data of sea ice in the Bothnian Bay, Baltic Sea</b>	
<i>Lundin, M. and Håkansson, B.</i> .....	31
<b>The development of the Swedish Ice Service during last 40 years</b>	
<i>Lundqvist, J.-E.</i> .....	37
<b>Some aspects of the Baltic Sea ocean climate system</b>	
<i>Omstedt, A.</i> .....	43
<b>Decadal variability in Baltic Sea ice development analysis of model results and observations</b>	
<i>Schrum, C. and Janssen, F.</i> .....	49
<b>Measurements of under-ice oceanic heat flux in the Baltic Sea during the BALTEX/BASIS and HANKO experiments</b>	
<i>Shirasawa, K., Launiainen, J., and Leppäranta, M.</i> .....	59
<b>Changes of sea ice climate during the XX century – Polish coastal waters</b>	
<i>Sztobryn, M. and Stanislawczyk, I.</i> .....	69
<b>Natural process of sea ice evolution in the Gulf of Riga</b>	
<i>Wang, K., Leppäranta, M., and Kõuts, T.</i> .....	77
